HEPTOL SPLITS IS "IT."

Thinking people now realize that dosing the system with Calomel, Pills and other strong purgatives is a grave mistake and very injurious. The physical organs occasionally become tired and fail to respond to the duties of nature, thereby clogging the system and then a stimulative laxative is required to remove the accumulated poisons and to again start in motion the vital machinery; for this purpose some mild non-injurious remedy should be used. That is what

Heptol Splits

are for,

DELICIOUSLY PALATABLE,
GENTLE IN ACTION,
GRATIFYING IN RESULTS.

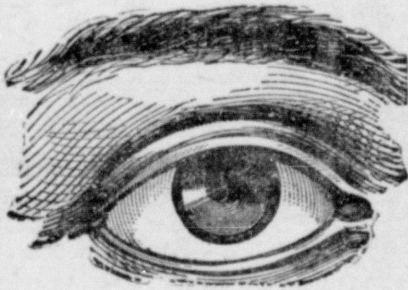

Heptol Splits meets the approval of all. Everyone should take Heptol Splits. Don't you be the last to try it. Sold at drug stores, soda fountains, cafes and bars at 15c a Split. Manufactured by the Morrison Drug Co., Waco, Texas.

THE ARMY CANTEN A

Abolishment Responsible for Deplorable Increase of Offenses.

RUINED MANY MEN

It Has Enriched Saloon Men, Added Wealth to Gamblers and Kept up Dissolute Women—Above is Funston's Statement.

Washington, Sept. 27.—Abolishment of the army canteen is responsible for a "deplorable increase of offenses in general and desertions in particular," according to the annual report of Brigadier General Funston, department of Colorado. General Funston declares that the ousting of the canteen by act of congress has lowered the discipline of the army, ruined scores of good soldiers and enriched saloon keepers, gamblers and dissolute women. He explains the deterioration as follows:

"In my opinion there are two principal causes for this state of affairs: First, resentment of unaccustomed limitations and restrictions felt by men returning from the field of service to the monotony and routine work of garrison life; second, the abolition of the canteen feature of the post exchange. Since this action was taken saloons of the lowest type have been established just outside of the boundaries of the various reservations; their proprietors in almost every case, unprincipled scoundrels who leave nothing undone to debauch the soldiers and obtain their money. Being in all cases outside the limits of any city the proprietors of these resorts are subject to no municipal police regulations, and sell liquor regardless of hours and whether the buyer is already intoxicated or not. Gambling is universal in these dives and they are frequented by dissolute women. The soldier whose desire for a drink would ordinarily be satisfied by a few glasses of beer in the canteen of the post exchange, goes to one of these resorts and does well if he escapes before he has spent or gambled away all his money, overstayed his leave or engaged in an altercation. As a rule, the local authorities regard the existence of these places with indifference or approval as it causes the soldier to spend his money in the community. The efficiency of the army or the ruin of a good soldier is nothing to them. There can be no reasonable doubt that most of the trials by general courts martial and summary courts, at least so far as this department is concerned, are directly traceable to this cause. Since I have had command here there has taken place the ruin and degradation of several non-commissioned officers of long service and fine record. In short the recent legislation by congress on this question, so far as this department is concerned, has had no effect except to lower the discipline of the army, ruin scores of good soldiers and fill the pockets of a lot of saloon keepers, gamblers and prostitutes."

Restraining Order Overruled.

Austin, Sept. 27.—In the court of civil appeals here the motion to vacate the restraining order recently granted by this court was overruled. This is the case wherein the court of civil appeals recently upon the application of Mayor J. W. Riggins of Waco issued an order to restrain the city council of Waco from further proceeding with his impeachment.

Quiet at Port Arthur.

Beaumont, Tex., Sept. 27.—Aside from a complication which has arisen over the fact that Col. A. J. Houston, United States marshal for this district, spent Thursday in Port Arthur, there is nothing of particular interest here concerning the recent trouble with some Mexicans in the city.

Fast Steamers to Liverpool.

Montreal, Sept. 27.—According to an announcement by the officials of the Canadian Pacific railway the first fast steamer of the new Allan line service from St. John, N. B., in connection with that road, will sail from Liverpool on November 6. Sailings will then be weekly.

Turkistan Town Wiped Out.

Simla, Sept. 27.—Further reports received here regarding the earthquake in Eastern Turkestan show in addition to causing other damage the town Artush was reduced to ruins and that 666 persons were killed and about 1000 injured.

Arm Mangled in a Gin.

Corpus Christi, Tex., Sept. 27.—Manuel Siz was seriously injured at Portland by getting his left arm terribly mangled in a gin.

Dies of His Wound.

Chillicothe, Tex., Sept. 27.—Mose Cloyd, whose arm was mangled in a gin at this place on Wednesday, died of his wounds.

A SERIOUS COLLISION

Heavy Freight Crashes into a Fruit and Stock Train.

SEVERAL MEN DEAD

They Were Caught Under the Debris and as the Wreck Is Afire It Is Believed There Is No Hope for Their Rescue.

Rawlins, Wyo., Sept. 27.—A disastrous freight wreck occurred in the western part of the city, and it is believed at least six men are under the debris, which is now burning fiercely.

An extra fruit and stock special with Engineer Patnoe in charge came in. There is a heavy grade coming into the yards from the west, and the air brakes failed to work. The engineer whistled for brakes, but it was too late for the hand brakes to have any effect on the heavy train, which crashed into the long stock train standing on a side track. About fifteen cars were piled on top of the engine, and almost instantly they burst into flames.

Engineer Patnoe was thrown under the wreck, and it is said at least four or five others shares a like fate. Passengers succeeded in clearing away the wreck sufficiently to talk to Engineer Patnoe, who is still alive, but it is feared they will be unable to get him out before he is burned to death.

There were at least a dozen men riding on and in the cars, beating their way over the road. It is not known how many of them escaped. Not more than four have been seen, but it is believed that more than that number got off when it was learned that the engineer had lost control of his train.

The broken cars are piled up in splinters, and the wind is blowing a gale. A large number of sheep were burned to death.

Mayor Lost in the Woods.

Seattle, Wash., Sept. 27.—Mayor Thomas Humes is either lost in the woods near Lake Washington, or met with a serious accident that prevented his return to his summer camp. He started on a bear hunt Thursday and became separated from his companions. He failed to appear at the designated place of meeting and no trace of him has been found. Diligent efforts are being made to find the mayor.

Refused to Work Without Meat.

New York, Sept. 27.—Giving as an excuse that they could not work without meat, twenty inmates of the state prison at Trenton, N. J., have struck work in the brush shop, and most of them are now in chains in the dungeons. Before the present high rates were charged it was the custom to give the prisoners who worked liberal supplies of meat, but lately rice has been substituted.

Eruption of Stromboli.

London, Sept. 27.—A special from Rome, after confirming reports that Stromboli had been in full eruption for some time, says the night scene was grand, but terrifying. Lava streamed down the mountain sides seawards, while huge boulders were hurled from the crater to a great height, falling into the sea fully two and a half miles from the shore. Two hundred were killed.

Marching Against Turkish Villages.

Vienna, Sept. 27.—Neue Freie Presse publishes a dispatch from Salonica announcing the inhabitants of all villages in Villayet Monastier have risen since Tuesday and revolutionists are marching against the Turkish villages. More troops are being sent to suppress the rising, but the situation is regarded as grave.

The Hearing Postponed.

St. Louis, Sept. 27.—The case of the St. Louis Traffic bureau against the Kansas City Southern, Texas and Pacific and St. Louis Southwestern railroads, which was assigned to hearing before the interstate commerce commission at St. Louis, has been postponed. It is probable the matter, which pertains to rates, may be settled without a hearing.

Mobile and Ohio Earnings.

New York, Sept. 27.—The annual report of the Mobile and Ohio Railroad company for the fiscal year ended June 30, shows a surplus, after all charges and deductions, of \$124,050, against a deficit in the previous year of \$22,714. The road is now operated by the Southern railway.

Sixty Seven Applicants.

Fort Worth, Tex., Sept. 27.—A lady in Fort Worth who is a candidate for the position of postmaster in the state senate, says that she is informed that there are sixty-seven applicants for the place to which she is aspiring.

Killing Near Troupe.

Tyler, Tex., Sept. 27.—James Rankin was shot and killed near Troupe, this county. Joe Wilsner was arrested. Both men are well known in the county.

Is it not strange that in every county and in almost every precinct that you may visit there is at least one farmer known as a corn grower. He rarely or never fails. The dry and the wet seasons come and go but he "makes corn" and "sells corn." So in every county there is found the man "who grows his own meat" and regardless of cholera and bad crops keeps his smoke house on his own farm. This peculiar man is some times a successful truck grower or fruit raiser. He may assume one of several forms, but we may safely call him "Mr. Know How." The average farmer often looks upon him as somewhat of a conjurer, but at bottom we find his success due to intelligent effort. Intelligence can insure crops in the face of disease, chinch bug, boll weevils, boll worms, drouth—yes, and floods, too. This is the principle on which our Agricultural colleges were founded by the fathers, the purpose of all experiment station investigation, and makes up the warp and woof of the Farmers' Institutes movement in Texas.—Farm and Ranch.

YELDERMAN BOYS.

Evidence Against Them Being Carefully
Studied by District Attorney
Buchanan.

There were no new developments in the Yelderman murder case Thursday. John Yelderman, the youngest of the trio, remained incommunicative and refused to discuss his case to any one except his lawyer. Jim Yelderman spent the day in Mathis' law office, where his case is being studied and gotten in shape for a defense. Sam Yelderman is in jail at Bryan and will probably be kept there until the trial. His wife denies ever having made any statements that she heard a plot between the Yelderman boys to kill old Yelderman. Granville Smith, colored, who is held here in the city makes some damaging statements against the boys. Both of the boys here and the one at Bryan stoutly assert their innocence. It cannot be learned yet whether Judge Sinks will call a special session of the grand jury to pass upon the boys case and bring in indictments.—Brenham Banner.

Sam Yelderman was arrested a few days since by C. L. Baker and Louis Reed and has since been in jail here. We learn the Washington county grand jury has been called together to investigate the case.

Comptroller Love holds that Peruna may not be sold in local option precincts except on prescription and after the payment of the liquor tax. This will bring on more talk about the whisky tablet.

TEXAS STATE FAIR.

Seventeenth Annual Exhibition Begins Under Favorable Auspices.

Dallas, Sept. 27.—The state fair opened for the seventeenth time this morning. The day was set apart for the benefit of the St. Louis World's fair, the press, Baylor University and the children. An elaborate program was carried out by the World's fair and press people, Baylor and Trinity Universities had a football game on the grounds, and all children under 12 years of age were admitted free. There were concerts in music hall at 10 a. m. and 2 p. m. On the race tracks there were speed contests for automobiles and motor bikes from 10 o'clock until noon, and in the afternoon from 2 to 6 o'clock two harness and four running races will be decided.

The World's fair rally and press meeting, which was held in the music hall, began at 11 o'clock. The meeting was called to order by Hon. F. P. Holland, chairman of the Dallas press committee, who welcomed the visitors in behalf of the press of the city, and presented Mayor Cabell, who expressed welcome on the part of the city and the Fair association. Gov. Sayers was then introduced and formally opened the seventeenth annual session of the Texas State fair. After the conclusion of Governor Sayer's address Mr. Holland turned the gavel over to Clarence Ousley, president of the Texas Press association, who responded on the part of the state press. Following him, addresses were made by Hon. John M. Allen of Mississippi, a member of the National World's Fair commission; Hon. John H. Kirby, president of the Texas World's Fair commission, and Hon. Joseph Flory of Missouri, secretary of the National World's Fair commission.

Bachelor Girls.

The first anniversary of the "Bachelor Girls Literary Club" was celebrated Friday afternoon from 4:30 to 6 o'clock at the home of Miss Edith Rhodes.
Miss Harbers, vice-president, served in the absence of the president, Miss Read, who was detained at home on account of illness. "After business comes pleasure." Miss Rhodes had a delightful surprise ready as soon as the club adjourned, and all participated in a contest of "Southern Authors." A dainty ping-pong handkerchief was awarded to the best contestant—Miss Lucy Board. Delightful refreshments, consisting of wafers and cream, were served.
The "Bachelors" then said good bye to their charming hostess—all very grateful indeed to Miss Rhodes for an afternoon spent most pleasantly as well as most profitably.
The club will hold its next weekly meeting with Miss Board. E. B. T.

A Merry Evening.

The handsome home of Mr. and Mrs. W. W. Harris was the scene of a happy surprise party given to Miss Louise Harris by a number of friends and gotten up by Misses Maggie McDougald and Nellie Tabor, and the hours from 9 to 12 o'clock were most delightfully enjoyed by twenty-five of her young friends. The beautiful parlor and reception hall were used for the entertainment of the guests, and music, games and conversation were the features of the evening. Orange ice and cake were gracefully served by Misses Louise Harris and Maggie McDougald. Miss Louise is a favorite among her many friends, and a delightful entertainer.

The Eagle is requested to express the thanks of the teacher and pupils of class No. 3 of the Methodist Sunday school to the gentlemanly proprietors of the merry-go-round for their courtesy and generosity in giving a benefit for the class Friday night, and also to all those who so liberally patronized the entertainment, which was a thorough success in spite of bad weather. More than enough was realized to meet the obligation of the class, and will be applied to the new church enterprise.

W. A. Scott of Larrison left for Bryan Monday with his two fine race horses which will be seen among the rest of the fleet-footed flyers on the track at the Central Texas Fair. Mr. Scott says these runners are going to pull down some of the purses that have been hung up over there.—Madisonville Meteor.

Only two weeks more until the great Central Texas fair. Don't wait until the last day to have your art pictures framed at Carter's Studio. Take them up now before the rush, you can get any size, kind, color or price. 56

Seven Gave Their Lives.

On St. Patrick's day of this year seven Atlantic Coast Guard Life Savers were drowned together by the overturning of a boat in a tempestuous sea, while endeavoring to rescue the crew from a wrecked barge, off the end of Cape Cod. Numbers of the brave fellows in that service give their lives to save others, every winter. The crew now on furlough with Buffalo Bill's Wild West have dauntlessly faced such perils for years. One of the most intensely interesting features in the arena programme is their highly realistic demonstration of the way in which the "Breeches buoy" is operated to take people from wrecks. All their outfit is loaned by the government for this use. They will be seen here on Oct. 18.

Criminal Docket Results.

The criminal docket of the present term of court was short, and was disposed of in five days. There were no acquittals. The entire docket was disposed of except one case—State vs. Tom Williams, continued. Cases were disposed of as follows:

Tobe Price, criminal assault, death penalty.
Dennis Watson, aggravated assault, fined \$75.00.
George Williams, aggravated assault, fined \$25.00.

Madison Josey, disposing of mortgaged property, two years.
Jack Kennedy, burglary, two years.

Ira King' criminal assault, five years.

TREATY WITH INDIANS.

It Will Lead to Better Adjustment of Choctaw and Chickasaw Tribes.

Washington, Sept. 27.—Official telegraphic advices to the interior department announce that the supplemental agreement negotiated between the government and the Choctaw and Chickasaw Indian tribes has been ratified by an overwhelming majority by those nations.

The supplemental treaty makes modifications and additions to the original agreement in a number of important matters. It provides for the sale of the coal lands, which aggregate 500,000 acres, at public auction. There will be no leases of coal or asphalt lands. It also segregates not over 640 acres for sulphur springs under government control; established citizenship courts to retry citizenship cases tried in 1896; provides for the enrollment of all Mississippi fullblood Choctaws and of the descendants of all Mississippi Choctaws who have received patented lands and authorizes the Chickasaw freedmen to institute proceedings in the court of claims to determine their rights.

Commandant Ladurie Dismissed.

Nantes, France, Sept. 27.—Commandant Leroy Ladurie of the Nineteenth infantry, who, as announced Aug. 12, was placed under arrest for refusing to obey an order to aid in closing up schools, has been tried by court martial and dismissed from the service. He admitted the charge of disobedience, but declared that his conscience forbade him to participate in anti-religious measures and evicting women, which he did not consider to be duties of the army.

The Dismissal of Miss Taylor.

Washington, Sept. 27.—Counsel for Miss Rebecca J. Taylor, who was dismissed recently from the war department as a result of her published criticisms of the administration's policy in the Philippines, have filed a demurrer to Secretary Root's answer to her petition for mandamus to compel the secretary to restore her to a clerkship.

Trying to Buy the Leaders.

Scranton, Pa., Sept. 27.—In a statement issued here, District President Nichols, accuses Michael Grimes, a former mine foreman of being "at the head of a movement inaugurated by the coal companies to bribe a number of mine workers for \$2500 a piece to vote to return to work." Grimes denies the charge.

VALUE OF IRRIGATION.

Reports from Experimenting Stations of
the Agricultural Department.

Washington, Sept. 27.—The third annual report of irrigation investigations by the office of the experiment stations of the United States department of agriculture, made under the direction of Elmwood Mead, says averages of measurements, embracing nearly all arid states, show during the past three years enough water was turned into heads ditches during irrigation season to cover the land irrigated to the depth of four feet, or, stated another way, 4.45 feet of water taken from the streams for every acre of land irrigated. The large part of this water supply was especially great where canals run through gravelly soil. Another interesting table in the report shows the value of crops grown for each foot of water used. They vary from \$1.23 an acre to \$1.22 an acre foot, water bringing the least return when used on alfalfa, and the largest return when used in irrigating nursery stock. It also shows the crops which require irrigation, the last half irrigation have been of far greater value than those which require irrigation during the first half. The average value per acre of crops which should be irrigated in the last half of the season being \$49.39 an acre, while crops which require irrigation only in the first half of the season have averaged in value only \$17.83 an acre, a difference of \$31.56 in favor of late crops. These, however, to be watered when streams are low and water scarce. As a rule this water supply can be had only through storage, and the cost of reservoirs has been charged against the extra value of crops. Experience shows, however, the report says, storage water pays the farmers and will increase largely the productive value of the irrigated lands.

SHORT CORN PACK.

New York Jobbers Cannot Get Enough
to Fill Orders.

New York, Sept. 27.—Considerable uneasiness is felt among jobbing grocers of this city over this season's corn pack. The situation, owing to the almost unprecedented shortage in the Maine pack and to a very marked falling off in the New York state pack, is declared to be the worst in years.

Many leading jobbers bought heavily for future delivery from the packers and also sold heavily to the retail trade. They are now wondering where the goods will come from to fill these orders or how they will satisfy their customers.

Prices have shown a marked increase. Two weeks ago Maine standards were quoted at from 91 cents to \$1 per dozen, spot, compared with the nominal price of \$1.15 to \$1.20, with very few offerings at any price.

Piracy Off Chinese Coast.

Pekin, Sept. 27.—Complaints are made by American shippers that piracy is increasing on the Shan Tung coast, and, it is said, there is a prospect of great losses in junk cargoes being sustained. United States Minister Conger will ask the authorities to use the Chinese warships now idle at Che Foo to clear the coast of pirates. If this is not done, Minister Conger says the loss of \$280,000 worth of oil is imminent.

Earthquakes in Mexico.

City of Mexico, Sept. 27.—Advices from Salina Cruz, the Pacific terminus of the Tehuantepec National railway, which is being rebuilt by the famous English contractors, Sir Wilmam Parson & Son, state that Tuesday no less than 75 shocks of earthquake were felt, causing much alarm and doing some damage.

Found With His Throat Cut.

Canton, Tex. Sept. 27.—W. B. Mitchell, for many years a clerk in the grocery store here, was found locked in his house Thursday, lying on the bed with a pocket knife in hand and a gash in his throat severing the windpipe. Surgeons were called in and dressed his wounds, and he is yet alive, but in a very critical condition.

Seaman Killed at Galveston.

Galveston, Tex., Sept. 27.—While standing in the center of a hatch on the British steamship Llangibby, Thomas Christanson was suddenly and without warning hurled to eternity. He was precipitated to the hold of the ship, a distance of thirty-five feet, and killed.

Fell from a Wagon.

Ennis, Tex., Sept. 27.—Peter Caton, a quiet and harmless Irishman, who lived by doing odd jobs about town, fell out of his water wagon here and his skull was fractured. He died from the injuries in about thirty minutes. He was formerly a railroad section workman.

Killed and Then Robbed.

Goldthwaite, Tex., Sept. 27.—An old Mexican known to everybody by the name of Mexican John, was killed as his camp in W. R. Doran's pasture adjoining town of San Saba. He was known to have \$50 on his person and robbery was no doubt the motive for the crime.

Serious Wreck in France.

Paris, Sept. 27.—Twenty-six persons were killed and a score of persons injured as a result of an accident to the express train running from Lille to Paris. The train left the rails while crossing a switch at Arleux, where it did not stop, and while going at great speed.

Mexican Killed at LaGrange.

LaGrange, Tex., Sept. 27.—Mike Williams, a Mexican, was shot and killed at the oil mills here. John McMillan surrendered to the officers and after an examining trial was placed under \$2000 bond.

LABOR LEADERS MEET.

Mitchell and Wilson Hold an Important
Conference at Pittsburg.

Pittsburg, Pa., Sept. 27.—President Mitchell and Secretary-Treasurer Wilson of the United Mine Workers of America, are here in conference at Hotel Henry. President Mitchell stated just previous to opening the conference that nothing of importance had been transacted at the meeting. "We are to go over routine business only," he said. He denied that other parties would take part in the meeting. In conclusion he said: "The cause of the strike in the anthracite mines will be sustained until the end."

Secretary-Treasurer Wilson said: "The strike has been on for twenty weeks, and will continue until the miners win."

It is reported here that the meeting will be more important than officials will admit, and that a further number of labor leaders will be in the conference before it is over.

READY FOR RESUMPTION.

Coal Mines in Order When Miners Are
Ready to Go to Work.

Philadelphia, Sept. 27.—General Manager Luther of the Philadelphia and Reading Railroad company's coal properties informs the sales department of the company that all of the Reading's important mines were in fairly good condition, and after the miners return to work comparatively little time would elapse before they would be turning out a normal production. It is true several of the Reading's collieries were flooded, but these will be abandoned for a time at least.

Officials of the Pennsylvania railroad report their anthracite mines in such condition that were the miners to go back to work the collieries would be able to produce three-fourths of their normal output, and within a week they would be in perfect shape.

Mob Chases Non-Union Men.

Shenandoah, Sept. 27.—A mob of several hundred at Centralia intercepted men going to work at Mount Carmel by trolley. The men were forced to return to their homes. A little while later the Lehigh Valley passenger train pulled into the station and a mob crowded into the cars looking for non-union men. A few men who waited at the station for the train to take them to work at the Packer colliery were chased away.

TO FIGHT THE TRUST.

Cigar Dealers and Tobacconists Organize
for Protection.

Chicago, Sept. 27.—Five hundred cigar dealers and tobacconists, among whom are many manufacturers, showed interest in the fight against the alleged tobacco trust by attending the first meeting of the Cigar Dealers' association of America Friday night. Some speakers counseled legislation, some advised an appeal to organized labor, some declared for recourse in the courts, and others, less radical, made fervid arguments in behalf of thorough organization. The organization was completed by the election of officers.

Liquidation of Securities.

New York, Sept. 27.—Violent liquidation of securities was forced this week by the loan contraction policy of the banks, to which they were compelled by the deficit in their reserves developed last week. Later in the week the force of the loan contraction was relaxed, although money continued stringent. The offer of Secretary Shaw to pay to the applicants the government interest due up to the end of the fiscal year had an encouraging effect upon the sentiment. There were some recoveries, led by St. Paul and Louisville, the former on reports of coming stock rights and the latter on the reported settlement of control.

Coal Train Stopped.

Shenandoah, Sept. 27.—About midnight Friday night it was reported to General Cobin that strikers held up a coal train that was being taken away from the Potts colliery at Locustdale and drove off the engineer and crew. The general sent a company of infantry to the colliery to protect it. The train was taken away without interference.

Increase in Electrical Works.

New York, Sept. 27.—At a meeting of the American institute of electrical engineers in this city President Scott said that since the organization of the institute in 1884 the value of electrical installations in the United States, outside of telegraph and telephone plants, had increased from \$1,000,000 to over \$4,000,000,000.

Prominent Italian Dead.

Philadelphia, Sept. 27.—Count Giuseppe Dassi, aged 70 years, one of the most prominent Italians in the United States, is dead at his home here from congestion of the brain. Count Dassi fought under Garibaldi. In 1876 he was president of the Italian commission at the Centennial exhibition in this city.

HEPTOL SPLITS IS "IT."

Thinking people now realize that dosing the system with Calomel, Pills and other strong purgatives is a grave mistake and very injurious. The physical organs occasionally become tired and fail to respond to the duties of nature, thereby clogging the system and then a stimulative laxative is required to remove the accumulated poisons and to again start in motion the vital machinery; for this purpose some mild non-injurious remedy should be used. That is what

THE ARMY CANTEN A SERIOUS COLLISION

Abolishment Responsible for Deplorable Increase of Offenses.

RUINED MANY MEN SEVERAL MEN DEAD

It Has Enriched Saloon Men, Added Wealth to Gamblers and Kept up Dissolute Women—Above is Funston's Statement.

Washington, Sept. 27.—Abolishment of the army canteen is responsible for a "deplorable increase of offenses in general and desertions in particular," according to the annual report of Brigadier General Funston, department of Colorado. General Funston declares that the ousting of the canteen by act of congress has lowered the discipline of the army, ruined scores of good soldiers and enriched saloon keepers, gamblers and dissolute women. He explains the deterioration as follows:

"In my opinion there are two principal causes for this state of affairs: First, resentment of unaccustomed limitations and restrictions felt by men returning from the field of service to the monotony and routine work of garrison life; second, the abolition of the canteen feature of the post exchange. Since this action has taken saloons of the lowest type have been established just outside of the boundaries of the various reservations; their proprietors in almost every case, unprincipled scoundrels who leave nothing undone to debauch the soldiers and obtain their money. Being in all cases outside the limits of any city the proprietors of these resorts are subject to no municipal police regulations, and sell liquor regardless of hours and whether the buyer is already intoxicated or not. Gambling is universal in these dives and they are frequented by dissolute women. The soldier whose desire for a drink would ordinarily be satisfied by a few glasses of beer in the canteen of the post exchange, goes to one of these resorts and does well if he escapes before he has spent or gambled away all his money, overstayed his leave or engaged in an altercation. As a rule, the local authorities regard the existence of these places with indifference or approval as it causes the soldier to spend his money in the community. The efficiency of the army or the ruin of a good soldier is nothing to them. There can be no reasonable doubt that most of the trials by general courts martial and summary courts, at least so far as this department is concerned, are directly traceable to this cause. Since I have had command here there has taken place the ruin and degradation of several non-commissioned officers of long service and fine record. In short the recent legislation by congress on this question, so far as this department is concerned, has had no effect except to lower the discipline of the army, ruin scores of good soldiers and fill the pockets of a lot of saloon keepers, gamblers and prostitutes."

Restraining Order Overruled.

Austin, Sept. 27.—In the court of civil appeals here the motion to vacate the restraining order recently granted by this court was overruled. This is the case wherein the court of civil appeals recently upon the application of Mayor J. W. Riggins of Waco issued an order to restrain the city council of Waco from further proceeding with his impeachment.

Quiet at Port Arthur.

Beaumont, Tex., Sept. 27.—Aside from a complication which has arisen over the fact that Col. A. J. Houston, United States marshal for this district, spent Thursday in Port Arthur, there is nothing of particular interest here concerning the recent trouble with some Mexicans in the city.

Fast Steamers to Liverpool.

Montreal, Sept. 27.—According to an announcement by the officials of the Canadian Pacific railway the first fast steamer of the new Allan line service from St. John, N. B., in connection with that road, will sail from Liverpool on November 6. Sailings will then be weekly.

Turkistan Town Wiped Out.

Simla, Sept. 27.—Further reports received here regarding the earthquake in Eastern Turkestan show in addition to causing other damage the town Artush was reduced to ruins and that 666 persons were killed and about 1000 injured.

Heavy Freight Crashes into a Fruit and Stock Train.

SEVERAL MEN DEAD

They Were Caught Under the Debris and as the Wreck Is Afire It Is Believed There Is No Hope for Their Rescue.

Rawlins, Wyo., Sept. 27.—A disastrous freight wreck occurred in the western part of the city, and it is believed at least six men are under the debris, which is now burning fiercely.

An extra fruit and stock special with Engineer Patnoe in charge came in. There is a heavy grade coming into the yards from the west, and the air brakes failed to work. The engineer whistled for brakes, but it was too late for the hand brakes to have any effect on the heavy train, which crashed into the long stock train standing on a side track. About fifteen cars were piled on top of the engine, and almost instantly they burst into flames.

Engineer Patnoe was thrown under the wreck, and it is said at least four or five others shares a like fate. Passengers succeeded in clearing away the wreck sufficiently to talk to Engineer Patnoe, who is still alive, but it is feared they will be unable to get him out before he is burned to death.

There were at least a dozen men riding on and in the cars, beating their way over the road. It is not known how many of them escaped. Not more than four have been seen, but it is believed that more than that number got off when it was learned that the engineer had lost control of his train.

The broken cars are piled up in splinters, and the wind is blowing a gale. A large number of sheep were burned to death.

Mayor Lost in the Woods.

Seattle, Wash., Sept. 27.—Mayor Thomas Humes is either lost in the woods near Lake Washington, or met with a serious accident that prevented his return to his summer camp. He started on a bear hunt Thursday and became separated from his companions. He failed to appear at the designated place of meeting and no trace of him has been found. Diligent efforts are being made to find the mayor.

Refused to Work Without Meat.

New York, Sept. 27.—Giving as an excuse that they could not work without meat, twenty inmates of the state prison at Trenton, N. J., have struck work in the brush shop, and most of them are now in chains in the dungeons. Before the present high rates were charged it was the custom to give the prisoners who worked liberal supplies of meat, but lately rice has been substituted.

Eruption of Stromboli.

Rome, Sept. 27.—A special from Rome, after confirming reports that Stromboli had been in full eruption for some time, says the night scene was grand, but terrifying. Lava streamed down the mountain sides seawards, while huge boulders were hurled from the crater to a great height, falling into the sea fully two and a half miles from the shore. Two hundred were killed.

Marching Against Turkish Villages.

Vienna, Sept. 27.—Neue Freie Presse publishes a dispatch from Salonaca announcing the inhabitants of all villages in Villayet Monastier have risen since Tuesday and revolutionists are marching against the Turkish villages. More troops are being sent to suppress the rising, but the situation is regarded as grave.

The Hearing Postponed.

St. Louis, Sept. 27.—The case of the St. Louis Traffic bureau against the Kansas City Southern, Texas and Pacific and St. Louis Southwestern railroads, which was assigned to hearing before the interstate commerce commission at St. Louis, has been postponed. It is probable the matter, which pertains to rates, may be settled without a hearing.

Mobile and Ohio Earnings.

New York, Sept. 27.—The annual report of the Mobile and Ohio Railroad company for the fiscal year ended June 30, shows a surplus, after all charges and deductions, of \$124,050, against a deficit in the previous year of \$22,714. The road is now operated by the Southern railway.

Is it not strange that in every
 county and in almost every pre-
 cinct that you may visit there is at
 least one farmer known as a corn
 grower. He rarely or never fails.
 The dry and the wet seasons come
 and go but he "makes corn" and
 "sells corn." So in every county
 there is found the man "who
 grows his own meat" and regard-
 less of cholera and bad crops keeps
 his smoke house on his own farm.
 This peculiar man is some times a
 successful truck grower or fruit
 raiser. He may assume one of
 several forms, but we may safely
 call him "Mr. Know How." The
 average farmer often looks upon
 him as somewhat of a conjurer, but
 at bottom we find his success due
 to intelligent effort. Intelligence
 can insure crops in the face of dis-
 ease, chinch bug, boll weevils,
 boll worms, drouth—yes, and
 floods, too. This is the principle
 on which our Agricultural colleges
 were founded by the fathers, the
 purpose of all experiment station
 investigation, and makes up the
 warp and woof of the Farmers' In-
 stitutes movement in Texas.—

YELDERMAN BOYS.

Evidence Against Them Being Carefully
 Studied by District Attorney
 Buchanan.

There were no new developments
 in the Yelderman murder case
 Thursday. John Yelderman, the
 youngest of the trio, remained in-
 communicative and refused to dis-
 cuss his case to any one except his
 lawyer. Jim Yelderman spent the
 day in Mathis' law office, where
 his case is being studied and got-
 ten in shape for a defense. Sam
 Yelderman is in jail at Bryan and
 will probably be kept there until
 the trial. His wife denies ever
 having made any statements that
 she heard a plot between the Yel-
 derman boys to kill old Yelderman.
 Granville Smith, colored,
 who is held here in the city makes
 some damaging statements against
 the boys. Both of the boys here
 and the one at Bryan stoutly as-
 sert their innocence. It cannot be
 learned yet whether Judge Sinks
 will call a special session of the
 grand jury to pass upon the boys
 case and bring in indictments.—
 Brenham Banner.

Sam Yelderman was arrested
 a few days since by C. L. Baker
 and Louis Reed and has since been
 in jail here. We learn the Wash-
 ington county grand jury has
 been called together to investigate
 the case.

TEXAS STATE FAIR.

Seventeenth Annual Exhibition Begins
 Under Favorable Auspices.
 Dallas, Sept. 27.—The state fair
 opened for the seventeenth time this
 morning. The day was set apart for
 the benefit of the St. Louis World's
 fair, the press, Baylor University and
 the children. An elaborate program
 was carried out by the World's fair
 and press people, Baylor and Trinity
 Universities had a football game on
 the grounds, and all children under 12
 years of age were admitted free. There
 were concerts in music hall at 10 a. m.
 and 2 p. m. On the race tracks there
 were speed contests for automobiles
 and motor bikes from 10 o'clock un-
 til noon, and in the afternoon from 2
 to 6 o'clock two harness and four run-
 ning races will be decided.

The World's fair rally and press
 meeting, which was held in the music
 hall, began at 11 o'clock. The meet-
 ing was called to order by Hon. F.
 P. Holland, chairman of the Dallas
 press committee, who welcomed the
 visitors in behalf of the press of the
 city, and presented Mayor Cabell, who
 expressed welcome on the part of the
 city and the Fair association. Gov.
 Sayers was then introduced and for-
 mally opened the seventeenth annual
 session of the Texas State fair. After
 the conclusion of Governor Sayer's ad-
 dress Mr. Holland turned the gavel
 over to Clarence Ousley, president of
 the Texas Press association, who re-
 sponded on the part of the state press.
 Following him, addresses were made
 by Hon. John M. Allen of Mississippi,
 a member of the National World's Fair
 commission; Hon. John H. Kirby,
 president of the Texas World's Fair
 commission, and Hon. Joseph Flory of
 Missouri, secretary of the National
 World's Fair commission.

Bachelor Girls.

The first anniversary of the "Bachelor Girls Literary Club" was celebrated Friday afternoon from 4:30 to 6 o'clock at the home of Miss Edith Rhodes.
Miss Harbers, vice-president, served in the absence of the president, Miss Read, who was detained at home on account of illness. "After business comes pleasure." Miss Rhodes had a delightful surprise ready as soon as the club adjourned, and all participated in a contest of "Southern Authors." A dainty ping-pong handkerchief was awarded to the best contestant—Miss Lucy Board. Delightful refreshments, consisting of wafers and cream, were served.
The "Bachelors" then said good bye to their charming hostess—all very grateful indeed to Miss Rhodes for an afternoon spent most pleasantly as well as most profitably.
The club will hold its next weekly meeting with Miss Board.

A Merry Evening.

The handsome home of Mr. and Mrs. W. W. Harris was the scene of a happy surprise party given to Miss Louise Harris by a number of friends and gotten up by Misses Maggie McDougald and Nellie Tabor, and the hours from 9 to 12 o'clock were most delightfully enjoyed by twenty-five of her young friends. The beautiful parlor and reception hall were used for the entertainment of the guests, and music, games and conversation were the features of the evening. Orange ice and cake were gracefully served by Misses Louise Harris and Maggie McDougald. Miss Louise is a favorite among her many friends, and a delightful entertainer.

The Eagle is requested to express the thanks of the teacher and pupils of class No. 3 of the Methodist Sunday school to the gentlemanly proprietors of the merry-go-round for their courtesy and generosity in giving a benefit for the class Friday night, and also to all those who so liberally patronized the entertainment, which was a thorough success in spite of bad weather. More than enough was realized to meet the obligation of the class, and will be applied to the new church enterprise.

W. A. Scott of Larrison left for Bryan Monday with his two fine race horses which will be seen among the rest of the fleet-footed flyers on the track at the Central Texas Fair. Mr. Scott says these runners are going to pull down some of the purses that have been hung up over there.—Madisonville Meteor.

Only two weeks more until the great Central Texas fair. Don't wait until the last day to have your art pictures framed at Carter's Studio. Take them up now before the rush, you can get any size, kind, color or price. 56

Seven Gave Their Lives.

On St. Patrick's day of this year seven Atlantic Coast Guard Life Savers were drowned together by the overturning of a boat in a tempestuous sea, while endeavoring to rescue the crew from a wrecked barge, off the end of Cape Cod. Numbers of the brave fellows in that service give their lives to save others, every winter. The crew now on furlough with Buffalo Bill's Wild West have dauntlessly faced such perils for years. One of the most intensely interesting features in the arena programme is their highly realistic demonstration of the way in which the "Breeches buoy" is operated to take people from wrecks. All their outfit is loaned by the government for this use. They will be seen here on Oct. 18.

Criminal Docket Results.

The criminal docket of the present term of court was short, and was disposed of in five days. There were no acquittals. The entire docket was disposed of except one case—State vs. Tom Williams, continued. Cases were disposed of as follows:
Tobe Price, criminal assault, death penalty.
Dennis Watson, aggravated assault, fined \$75.00.
George Williams, aggravated assault, fined \$25.00.
Madison Josey, disposing of mortgaged property, two years.
Jack Kennedy, burglary, two years.
Ira King' criminal assault, five years.

Rev. E. L. Shottles announces services at the Methodist church today, morning and night. Rev. I. M. Price of Rockdale will do the preaching.

TREATY WITH INDIANS.

It Will Lead to Better Adjustment of Choctaw and Chickasaw Tribes.
Washington, Sept. 27.—Official telegraphic advices to the interior department announce that the supplemental agreement negotiated between the government and the Choctaw and Chickasaw Indian tribes has been ratified by an overwhelming majority by those nations.
The supplemental treaty makes modifications and additions to the original agreement in a number of important matters. It provides for the sale of the coal lands, which aggregate 500,000 acres, at public auction. There will be no leases of coal or asphalt lands. It also segregates not over 640 acres for sulphur springs under government control—established citizenship courts to retry citizenship cases tried in 1896, provides for the enrollment of all Mississippi fullblood Choctaws and of the descendants of all Mississippi Choctaws who have received patented lands and authorizes the Chickasaw freedmen to institute proceedings in the court of claims to determine their rights.

Commandant Ladurie Dismissed.

Nantes, France, Sept. 27.—Commandant Leroy Ladurie of the Nineteenth Infantry, who, as announced Aug. 12, was placed under arrest for refusing to obey an order to aid in closing up schools, has been tried by court martial and dismissed from the service. He admitted the charge of disobedience, but declared that his conscience forbade him to participate in anti-religious measures and evicting women, which he did not consider to be duties of the army.

The Dismissal of Miss Taylor.

Washington, Sept. 27.—Counsel for Miss Rebecca J. Taylor, who was dismissed recently from the war department as a result of her published criticisms of the administration's policy in the Philippines, have filed a demurrer to Secretary Root's answer to her petition for mandamus to compel the secretary to restore her to a clerkship.

Trying to Buy the Leaders.

Scranton, Pa., Sept. 27.—In a statement issued here, District President Nichols, accuses Michael Grimes, a former mine foreman of being "at the head of a movement inaugurated by the coal companies to bribe a number of mine workers for \$2500 a piece to vote to return to work." Grimes denies the charge.

Lamar Pioneer Dead.

Paris, Tex., Sept. 27.—A. Gresham, who had been a resident of Paris and Lamar county nearly sixty years, died at his home on Short street. His wife died five weeks ago.

VALUE OF IRRIGATION.

Reports from Experimenting Stations of the Agricultural Department.

Washington, Sept. 27.—The third annual report of irrigation investigations by the office of the experiment stations of the United States department of agriculture, made under the direction of Elmwood Mead, says averages of measurements, embracing nearly all arid states, show during the past three years enough water was turned into heads ditches during irrigation season to cover the land irrigated to the depth of four feet, or, stated another way, 4.45 feet of water taken from the streams for every acre of land irrigated. The large part of this water supply was especially great where canals run through gravelly soil. Another interesting table in the report shows the value of crops grown for each foot of water used. They vary from \$1.23 an acre to \$1.22 an acre foot, water bringing the least return when used on alfalfa, and the largest return when used in irrigating nursery stock. It also shows the crops which require irrigation, the last half irrigation have been of far greater value than those which require irrigation during the first half. The average value per acre of crops which should be irrigated in the last half of the season being \$49.39 an acre, while crops which require irrigation only in the first half of the season have averaged in value only \$17.83 an acre, a difference of \$31.56 in favor of late crops. These, however, to be watered when streams are low and water scarce. As a rule this water supply can be had only through storage, and the cost of reservoirs has been charged against the extra value of crops. Experience shows, however, the report says, storage water pays the farmers and will increase largely the productive value of the irrigated lands.

SHORT CORN PACK.

New York Jobbers Cannot Get Enough to Fill Orders.

New York, Sept. 27.—Considerable uneasiness is felt among jobbing grocers of this city over this season's corn pack. The situation, owing to the almost unprecedented shortage in the Maine pack and to a very marked falling off in the New York state pack, is declared to be the worst in years.

Many leading jobbers bought heavily for future delivery from the packers and also sold heavily to the retail trade. They are now wondering where the goods will come from to fill these orders or how they will satisfy their customers.

Prices have shown a marked increase. Two weeks ago Maine standards were quoted at from 91 cents to \$1 per dozen, spot, compared with the nominal price of \$1.15 to \$1.20, with very few offerings at any price.

Piracy Off Chinese Coast.

Pekin, Sept. 27.—Complaints are made by American shippers that piracy is increasing on the Shan Tung coast, and, it is said, there is a prospect of great losses in junk cargoes being sustained. United States Minister Conger will ask the authorities to use the Chinese warships now idle at Che Foo to clear the coast of pirates. If this is not done, Minister Conger says the loss of \$280,000 worth of oil is imminent.

Earthquakes in Mexico.

City of Mexico, Sept. 27.—Advices from Salina Cruz, the Pacific terminus of the Tehuantepec National railway, which is being rebuilt by the famous English contractors, Sir Wielman Parson & Son, state that Tuesday no less than 75 shocks of earthquake were felt, causing much alarm and doing some damage.

Found With His Throat Cut.

Canton, Tex., Sept. 27.—W. B. Mitchell, for many years a clerk in the grocery store here, was found locked in his house Thursday, lying on the bed with a pocket knife in hand and a gash in his throat severing the windpipe. Surgeons were called in and dressed his wounds, and he is yet alive, but in a very critical condition.

Seaman Killed at Galveston.

Galveston, Tex., Sept. 27.—While standing in the center of a hatch on the British steamship Llangibby, Thomas Christianson was suddenly and without warning hurled to eternity. He was precipitated to the hold of the ship, a distance of thirty-five feet, and killed.

Fell from a Wagon.

Ennis, Tex., Sept. 27.—Peter Caton, a quiet and harmless Irishman, who lived by doing odd jobs about town, fell out of his water wagon here and his skull was fractured. He died from the injuries in about thirty minutes. He was formerly a railroad section workman.

Killed and Then Robbed.

Goldthwaite, Tex., Sept. 27.—An old Mexican known to everybody by the name of Mexican John, was killed at his camp in W. R. Doran's pasture adjoining town of San Saba. He was known to have \$50 on his person and robbery was no doubt the motive for the crime.

Serious Wreck in France.

Paris, Sept. 27.—Twenty-six persons were killed and a score of persons injured as a result of an accident to the express train running from Lille to Paris. The train left the rails while crossing a switch at Arleux, where it did not stop, and while going at great speed.

Mexican Killed at LaGrange.

LaGrange, Tex., Sept. 27.—Mike Williams, a Mexican, was shot and killed at the oil mills here. John McMillan surrendered to the officers and after an examining trial was placed under \$2000 bond.

LABOR LEADERS MEET.

Mitchell and Wilson Hold an Important Conference at Pittsburg.

Pittsburg, Pa., Sept. 27.—President Mitchell and Secretary-Treasurer Wilson of the United Mine Workers of America, are here in conference at Hotel Henry. President Mitchell stated just previous to opening the conference that nothing of importance had been transacted at the meeting. "We are to go over routine business only," he said. He denied that other parties would take part in the meeting. In conclusion he said: "The cause of the strike in the anthracite mines will be sustained until the end."

Secretary-Treasurer Wilson said:

"The strike has been on for twenty weeks, and will continue until the miners win."

It is reported here that the meeting will be more important than officials will admit, and that a further number of labor leaders will be in the conference before it is over.

READY FOR RESUMPTION.

Coal Mines in Order When Miners Are Ready to Go to Work.

Philadelphia, Sept. 27.—General Manager Luther of the Philadelphia and Reading Railroad company's coal properties informs the sales department of the company that all of the Reading's important mines were in fairly good condition, and after the miners return to work comparatively little time would elapse before they would be turning out a normal production. It is true several of the Reading's collieries were flooded, but these will be abandoned for a time at least.

Officials of the Pennsylvania railroad report their anthracite mines in such condition that were the miners to go back to work the collieries would be able to produce three-fourths of their normal output, and within a week they would be in perfect shape.

Mob Chases Non-Union Men.

Shenandoah, Sept. 27.—A mob of several hundred at Centralia intercepted men going to work at Mount Carmel by trolley. The men were forced to return to their homes. A little while later the Lehigh Valley passenger train pulled into the station and a mob crowded into the cars looking for non-union men. A few men who waited at the station for the train to take them to work at the Packer colliery were chased away.

TO FIGHT THE TRUST.

Cigar Dealers and Tobaccoists Organize for Protection.

Chicago, Sept. 27.—Five hundred cigar dealers and tobaccoists, among whom are many manufacturers, showed interest in the fight against the alleged tobacco trust by attending the first meeting of the Cigar Dealers' association of America Friday night. Some speakers counseled legislation, some advised an appeal to organized labor, some declared for recourse in the courts, and others, less radical, made fervid arguments in behalf of thorough organization. The organization was completed by the election of officers.

Liquidation of Securities.

New York, Sept. 27.—Violent liquidation of securities was forced this week by the loan contraction policy of the banks, to which they were compelled by the deficit in their reserves developed last week. Later in the week the force of the loan contraction was relaxed, although money continued stringent. The offer of Secretary Shaw to pay to the applicants the government interest due up to the end of the fiscal year had an encouraging effect upon the sentiment. There were some recoveries, led by St. Paul and Louisville, the former on reports of coming stock rights and the latter on the reported settlement of control.

Coal Train Stopped.

Shenandoah, Sept. 27.—About midnight Friday night it was reported to General Cobin that strikers held up a coal train that was being taken away from the Potts colliery at Locustdale and drove off the engineer and crew. The general sent a company of infantry to the colliery to protect it. The train was taken away without interference.

Increase in Electrical Works.

New York, Sept. 27.—At a meeting of the American Institute of electrical engineers in this city President Scott said that since the organization of the institute in 1884 the value of electrical installations in the United States, outside of telegraph and telephone plants, had increased from \$1,000,000 to over \$4,000,000,000.

Prominent Italian Dead.

Philadelphia, Sept. 27.—Count Giuseppe Dassi, aged 70 years, one of the most prominent Italians in the United States, is dead at his home here from congestion of the brain. Count Dassi fought under Garibaldi. In 1876 he was president of the Italian commission at the Centennial exhibition in this city.

American Federation of Labor.

Washington, Sept. 27.—President Gompers of the American Federation of Labor, has issued a call for the twentieth-second annual convention of the federation to be held at New Orleans beginning November 13 next.
